

DESIGN:

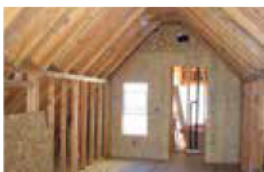

During our design process we take your ideas and needs to design your home. We create a detailed scope of work and a working set of plans and walk you through the process.

BUILD:

After the decisions are finalized in the design phase we create a schedule and manage the project from beginning to end.

REMODEL:

If it's a remodeling project, kitchen or bathroom remodel, multi-generation room addition, or an outdoor living space, we can bring your dream to life.

COLLOM'S MISSION:

At Collom Construction, our mission is to provide our clients with a finished product that aligns quality and craftsmanship and is delivered in a timely manner. Home remodeling is disruptive and intrusive to people's lives; we strive to make the process as efficient as possible. Our goal is to offer a favorable experience working with a contractor.

ABOUT COLLOM:

Collom Construction Inc. is a full-service Design Build Firm in San Diego. Be it a whole house remodel, room addition or outdoor living space, we manage the projects in their entirety, while committing to meet our clients' desires and needs.
